SKILLS
_____

Redux, React, JavaScript, Node.js, SQL, NoSQL, Firebase, HTML, CSS, Sass, Git

PROJECTS
_____

Lifetrest - Live Site | Demo | Code
Photo sharing application that mimics Pinterest - TECH Stack (React, Express, Node.js, SQL)
- Executed photo upload through Multer which stores images to app's local storage with use of SQL database.
- Implemented user authentication using Firebase, allowing users to create accounts and log in.
- Built backend with Postgres, SQL and Express to hold user information and process queries.

ZooVio - Live Site | Code
Pet Tracker and Medical App -TECH Stack (React, Express, Node.js, NoSQL & SQL)
- Implemented instant messaging feature through Google's firestore cloud database.
- Created video messaging [Pet owner to vet] through use of webRTC API wrapped by Simple-Peer.
- Built backend for veterinarian portal with cloud hosted real time database through firebase for log in

All About The Green - Code
Community based plant app- TECH Stack (React, Express, Node.js, SQL)
- Created Community forum through use of SQL database as well as Multer for photo upload.
- Implemented plant photo scanner where users can take photos of plants and receive plant match confirmation, information on specific plants and alike through the use of Plant.Id's API.

EXPERIENCE
_____

Brooklyn Community Housing & Services   **April 2019 - June 2020**
Case Manager   *Brooklyn, NY*
- Managed caseload of 10 clients providing various types of Medicaid billable services
- Led weekly group meetings for clients advancing to the next stage of housing and/or graduating from the program.
- Supported staff on how to use the AWARDS system which is used for medical billing; caught bugs when it came to user experience and escalated the issues accordingly
